TUESDAY, JULY 20. 1736.

No. 332.

Yesterday arrived a Mail from Holland.

Petersburg, June 25. O. S.

THE Persian Ambassador has received an Express from the General of the Army near the Euphrates, with Advice, that the Porte now does all that is in its Power to induce him to make a Peace; and that for this Reason a Turkish Bashaw was newly arrived in the Army with fresh Proposals; but that the Persian General declared to him, that if his full Power for an Accommodation, did not authorize him to agree to the intire Restitution of the Conquests made by the Turks in Persia, and to pay down ready Money for the Expences occasioned by the Capture, which amount to 100 Millions of Aspers, they would not give Ear to any further Proposals; so that the Turks have no Hopes of having the Places taken from them restored; and consequently the Rumor of an Accommodation between those two Powers is groundless.

An Envoy Extraordinary is actually arrived from Chamas Kouli Kan to the Czarina, to notify his Advancement to the Throne of Persia.

We have Advice from the Camp before Asoph, that the Besieged's Chief Magazine of Powder was blown into the Air by a Bomb from the Besiegers, which caused a General Confusion among the Garison and the Inhabitants, and that the Besiegers carried on their Approaches with very great Success.

Vienna, July 3. O. S. The Great Cataphalque or Imperial Monument which the Emperor had order'd to be erected in the Metropolitan Church of St. Stephen the Memory of Prince Eugene of Savoy, and at which solemn Service is now perform'd for the Repose of his Soul, is about 70 Foot high, and supported by 12 Pillars of the Composite Order, which are wreath'd with Lawrels and Palms, and have gilt Capitals and Bases. 'Tis adorned with a great many Figures, several of which represent in a mournful Attitude, the Virtues and Sciences with which the Hero was endow'd. The whole Church is hung in Mourning, and on the 12 Pillars there are 10 Paintings representing the Highness's 10 great Victories, viz. that of Zenta 1697, Chiari in 1701; Luzara in 1702; Hochstet in 1704; Cassano in 1705; Turin in 1706; Audenarde in 1708; Mons in 1709; Peterwaradin 1716, and the Siege in 1717. The said Monument, the Paintings, and the 25 Altars are illuminated with abundance of Wax Candles, and adorn'd with his Highness's Portraits. The Duke of Lorain and Prince Charles, the Pope's Nuncio and the Ambassadors of Venice, the Emperor's Ministers, the Knights of the Golden Fleece, the Tribunals, in short all People of Rank and Dignity, have for these three Days past, assisted at the Service above-mentioned; and during the whole Time the Bells of the City were tolled from 9 o'Clock in the Morning till half an Hour past 9 at Night. The Mausoleum which the Emperor has ordered to be erected for that great General, and for which he has set out 80,000 Florins, is already begun; and if the Part of the Workman can come up to his Majesty's Designs, it will be as fine a Piece of Work as any in the Empire. Father Peckhart the Jesuit pronounced the Panegyrick of the late Prince, on the first Day before the Divine Service, taking his Text in the 2d Book of the Maccabees, Chap. vi. ver. 31. *And thus this man died, leaving his Death for an Example of a noble Courage, and a Memorial of Vertue, not only unto young Men, but unto all his Nation.* We are assured that the Emperor has declared himself in favour of the Explanations desired by the Count of France, with regard to the Limits between his Imperial Majesty's Dominions and those of the King of Sardinia in Italy; which Difficulty being removed, 'tis much to be hoped that the Milanese will be evacuated without Delay.

Cadix, June 15. O. S. Captain Lynslager, who is returned hither from Salee, without having succeeded in the Commission he had from the States General, because of the Troubles that continue in the Empire of Morocco, brings the following Account of the State of Affairs in that Country: Muley Abdallah's Party has at

length got the better of that of Muley Ali. Muley Abdallah has caused the Bashaw Selim Tegnely, who commanded the Black Army for Muley Ali, to be taken out of a Sanctuary, and, at the same time, carried off four of that Bashaw's Sons, and several Persons of Note that were his Adherents, to Salee, with a numerous Guard. And on the 30th ult. Muley Abdallah, who repaired thither, caused the Bashaw Tegnely to be brought before him, together with three Prisoners, who were the Alcads or chief Men of the Country. After having caused their Bodies to be squeezed tight with a Cord several Times round, on purpose to puff up their Flesh, he ran them thro' with Lances; after which their dead Bodies were dragged out of the Town, and thrown into the Lay-stall. The Bashaw's four Sons were present at his Execution, and threatened with even more cruel Treatment, if they did not declare where he had concealed his Treasure; and then they were carried back to Prison. Muley Abdallah set out early next Morning for Mequinez, and as he was going out of Town thro' Crowds of Spectators, he shot six Persons who he suspected were not true to him. In short, hardly a Day passes but this barbarous Emperor commits some Act of Cruelty of one kind or other.

Leghorn, June 26. O. S. We have not heard much lately from Corfica of the Exploits of Lord Theodore. From Bastia they write, that several thousand Swifs are arrived there; that the Inhabitants have still a free Communication with several Parts of the Country; and that the Garison of St. Fiorenzo makes a very vigorous Defence. The Baron has settled several Persons here, with the Title of *Agents of his Majesty Theodore King of Corfica*, to take care of his Affairs here relating to Corfica, and to dispatch such Shipping as are bound to Corfica. A French Ship with Ammunition, and a Portmanteau seal'd up and directed for Theodore, is just failed thither with a Passport from one of those Agents.

Venice, July 3. O. S. The Republick is very much dissatisfied to hear, that the Spanish and Neapolitan Privateers, and those of Malta who carry the Flag of the King of Spain, or of the King of the two Sicilies, search all the Venetian Ships and confiscate their Cargoes, when they can find a Pretence to say, that they belong to the Subjects of Turkey. A Maltese Privateer, with a Neapolitan Flag, having lately met a Ship near the Coasts of Arabia, carrying Venetian Colours, and laden with a rich Cargo of Silks, Coffee, and other Goods, for the Account of 50 Turkish Merchants that were on board; the Privateer took the whole Cargo, and made the Merchants Prisoners, and then suffered the Ship and her Crew to proceed. The Porte was extremely incensed when they heard of it, and sent to the Maltese Republick to demand 200,000 Ducats as Satisfaction: And our Senate has also wrote to the Grand Master of Malta to demand the Restitution of the Ship, Cargo, and Persons that were on board, besides a proper Reparation for the Insult put upon St. Mark's Flag, threatening in case of Refusal, the Seizure of the Revenues of all the Commanderies, and of all the Estates which the Order of St. John of Jerusalem posses in the State of Venice. The Senate has also complain'd to the Courts of Spain and Naples against their Privateers, for carrying the Venetian Flag, and disturbing their Ships in the Levant.

which carried Theodore to Corfica; that he furnished him with the Money and necessary Ammunition to begin the Work; and that he continues, from time to time, to send him more to enable him to carry it on.

The Dutch have had an extraordinary Success this Year in their Whale Fishery in Greenland, where they have taken 550 Whales, and about 200 in Davis's Streights, without any Accident to any one of their Ships, tho' about 140 were sent out, which advanced to the 78th or 79th Degree of North Latitude. Several of their Ships are already come home with 11 or 12 Whales.

The Baron de Borck, the King of Prussia's Minister, arrived at Hanover from London last Wednesday Se'nnight; and on Saturday following his Britannick Majesty took the Diverfion of a great hunting Match on the Side of Zell.

'Tis said the Czarina has sent an Express to Vienna, to assure the Imperial Court, that she is not for carrying on the War against the Turks, provided they will yet give her suitable Satisfaction; and that a Courier has been thereupon dispatched to the Emperor's Minister at Constantinople, to try new Methods, if possible, for putting a Stop to the War.

Yesterday Se'nnight, Richard Macie and John Clark, two more of the notorious Gang of House-breakers, at and about Bristol, were committed to Newgate there, on the Information of Long Jack; the first charg'd with being concerned with him in breaking open a House in the Parish of Congersbury, stealing from thence a Waistcoat (which Long Jack had on when he gave the Information) and

other Things; and the latter, with being also concern'd with him in robbing a Shop in this City. It seems Long Jack and Gowing (the first Impacher) threaten'd on Tuesday last to Gibbet one another; which gives Hopes, that the Murderer of the poor Woman on St. Philip's Plain, will at length appear to be among this Gang. About 10 o'Clock Monday Night, Newgate was alarm'd, with a shouting Noise of the Felons in their Hold, who rung Changes with their Fetters in Imitation of Bells, cursing Mr. Legg, and what they would do if he came near them, which gave Apprehension they were filing of their Fetters, and threaten'd some Mischief, which oblig'd Mr. Legg, with some Assistants, to go down to them with drawn Hangers in order to quell them.

One Day last Week, Daniel Daffern, a Native of Ireland, having Occasion to Rent a Room of one Downs, a Weaver, without Lawford's Gate, desired the old Man to treat about the Price over a Cup of Ale, at a neighbouring Publick House; on a sudden Daffern left his Company, and not returning, the Weaver retir'd to his Home, when to his great Surprise, he found the Villain in the very Act of ravishing his Daughter, having cram'd a Handkerchief into her Mouth, and otherwise with Violence disabled her from opposing his vile Intention. He was immediately taken into Custody, and carried before Sir Robert Cann, where the poor Girl swore the Rape against him, who producing undeniable Testimony of her most horrid Abuse, he was sent to Gloucester Goal.

They write from Manchester, that such a Multitude of People endeavour'd the Assistance of Dr. Taylor, as he pass'd last Week thro' that Town in his Way to Lancashire, as was never known on the like Occasion. — The same Accounts we have received from Wolverhampton in Stafford, by which it also appears, that there was scarce a Village through which he pass'd, in that Neighbourhood, but what was lined with People on this Occasion. — His New Treatise on the Anatomy Supplies, &c. of the Eye, is now near printed off by Mr. Roberts, in Warwick-Lane, and will be published as soon as the Plates, design'd for this Work, are finished.

The uncommon Success, above Thirty Years last past, of so much famed and only true Original

ROYAL CHYMICAL WASH-BALL,

FOR beautifying the Face, Neck, and Hands; hath induced many Envious Persons, not in every Part of London, but in many Places in the Country to sell a Counterfeit White Ball (which may prove prejudicial as well as ineffectual) in Imitation of the true one.

To prevent as much as possible any Mistakes in Purchasing our Customers, we give this special Notice, That the True Sort are now sold only at Mrs. King's Toyshop, the Blue Boy, against the Cross-Keys Tavern in Cornhill; and at Mr. Giles's, a Miliner, at the Blue Ball near Hercules Pill Alley, by the Temple in Fleet-street. Price 1 s. each Ball, 12 to the Dozen; but no Allowance for less than 12 Balls at a Time, nor will they ever be sold any where else, except by the first given in these Advertisements of it.

Their true and real Virtues have been sufficiently attested all the Years they have been Sold by Publication, and the more so, as they are still more than ever used and admired by both Sexes of the best Quality, and many Thousands of Gentlemen and others, for making the Skin so delicately soft and smooth as not to be paralleled by any Wash or Wash-ball, &c. of any Kind or Form; for these Balls are indeed real Beautifiers of the Skin, by taking off all Deformities, as Tetter, Ringworm, Morpew, Sunburn, Scurf, Pimples, Pits, or Redness of Small-Pox, and keeping it of a lasting and extreme Whiteness; they soon alter red or rough Hands; are admirable in itching the Head, they not only give a most exquisite Sharpness to the Razor, but so comfort the Brain and Nerves, as to prevent catching Cold. They are of a grateful and pleasant Smell without the least Grain of Mercury, and may be eaten for their Safety.

The GRAND SPECIFICK

Cleansing and Strengthening the Reins, &c.

A Medicine that hath gain'd so much Reputation, for these many Years it has been published that not one of the many Pretenders to cure the like Complaints has at all hinder'd the just Reputation this first and only Specifick, for these Purposes, hath and does obtain, by its noble Effects.

For it may be certainly depended on as absolutely effectual for carrying off, by Urine, safely and speedily, all the Reins of secret Injuries, Remains of pernicious unskillfully prepared Mercurials, Gleet or Weaknesses, thro' tedious or ill managed Cures of the Venereal Disease; or from Self-pollution, and indurate Coition, &c.

Also any Weaknesses of the Vessels from Wrenches, Strains, Blows, or Falls, and all other Obstructions in the Urine Passages, even Stranguries, Ulcers, &c. are perfectly cured by it, be they of ever so long standing; which Reflexes of Ailments are, in Part, discovered by these following Symptoms, viz. Weakness and Pain in the Back, a Sharpness in Urine, its strong Smell, Films or Hairs as it were about about in it, and, in some, too frequent Occasion to make Urine.

This noble Specifick is also of singular and very extraordinary Use and Efficacy, where there is any Gravel, or small Stones, Slime, or any other Matter that obstructs Urine, bringing all away in a few Times taking, with Safety and to the very great Satisfaction of the Patients, as has been happily experienced by great Numbers of both Sexes, and particularly by a Gentleman, whose Case has so often been mentioned in this Advertisement, by a Certificate of his Case who, on taking but a little of this noble Specifick, was above an Ounce of Gravel, and was cured of an insupportable Pain about his Loins, &c. by a short Continuance of it.

It also strengthens and recovers, after a particular Manner, all Relaxations of the Vessels, confirms the Parts, bringing into Order, and thereby perfects the Cure to Admiration. It is a very pleasant Medicine, and will be found of uncommon Benefit to Mankind, beyond Expectation, which is the Reason of its being made publick, and to obviate the Ignorance of Pretenders in all the difficult Cases above-mentioned.

One Bottle, in most Cases, is sufficient for a perfect Cure, as you will see by the Directions given with it.

Sold at 7 s. 6d. the Bottle, at Mr. Sandwell's Toy-shop, the Griffin, the Corner of Bucklersbury in the Poultry.
